Hi Ron & Rick,

First, thanks to Ron for sending the list of NOAA issues and questions. We will look these over and try to set up a followup meeting.

Second, Paul Shriner officially started a detail in another office at EPA today, and won't be involved in 316b for the next 6 months. So I'd like you all to be sure to be especially vigilant to include Tom Born on all emails to EPA, because Tom will be taking the lead on ESA for our rulemaking. I've also copied Samantha Lewis, who is taking over many of Paul's team leader duties, so she's informed, too.

Thanks,

Julie
